

PURPOSE

Running A Type Tubing stops.

DESCRIPTION

The A Stop Running Tool are simple in design, consisting of one part.

The tool consists of multi diameter shaft with shear pin holes, the multi diameter allows the tool to be used for more than one size of A Stop.

OPERATION

Pin the desired size of A Stop onto the running tool and attach to toolstring.

Run A Stop to desired depth.

Engage slips in tubing wall, jar down to set slips on taper of A stop and shear the pin in the running tool.

Remove toolstring from Wellbore.
