

**PURPOSE**

To reduce debris on top of sub surface tools.

**ASSEMBLY PARTS**

1. Fishneck
2. End Cap

**OPERATION**

Tighten end cap onto fishneck and attach to GS Running / Pulling tool and hoist inside of lubricator. Lower into wellbore to top of sub surface tool, jar down to shear GS. Remove toolstring from wellbore.

**PRECAUTIONS**

If a large amount of debris is expected, an extension barrel may be added to accommodate added volume. Ensure that jarring down to release the junk catcher will not damage equipment below.
